

NUR POWER

ENERGY FREEDOM

Generate and store your own power and never worry about another electricity bill again

NurPower Stima AC/DC

ALL IN ONE PLUG N PLAY SYSTEM

Nur Power Stima AC/DC is a plug and play system designed for portable and integrated home power system capable of lighting an entire house throughout the night and providing all baseload power including Fridge, Portable Oven, fans TVs etc. The system is fully integrated and ready to use straight out of the box. It comes with a powerful advanced LifePo4 battery of 50ahr,

FEATURES

Efficient reliable long-lasting lithium battery technology (LifePo4)

Integrated and Scalable Systems

Plug and Play system design

Maintenance Free systems

2 Year manufacture warranty

Intelligent battery management technology

Optional
WiFi Integration

Optional
Pay As You Go

Up-to
30 LED bulbs

NurPower Residential & Business ESS

ALL IN ONE PLUG N PLAY SYSTEM

Nur Power Residential ESS is an all-in-one integrated residential energy storage system. Using long-life Lithium Iron-Phosphate batteries, it can store up to 10 kWh of energy from either the solar panels or grid, and it can output 5kW of AC electricity

FEATURES

Plug and Play system

Modular LifePo4 battery design (up to 5 modules of 2.56kWh each)
- Increase as required

Easily replace battery modules without switching off machine.

Long life battery with 10-year design life

Never lose power supply in emergency

Real-time remote monitoring and control through Wi-Fi

Optional
Pay As YouGo`

NurPower Commercial ESS

ENERGY FREEDOM FOR YOUR BUSINESS

Increase your profit by reducing your electricity bill expense, don't pay for expensive unreliable electricity and never use a generator again. NurPower's flexible payment plan gives you the power to control your electricity.

Nur Power Commercial Energy Storage System is a 3-in-1 integrated hybrid system consisting of solar controller, inverter and AC charger with up-to 150kWhr of LifePo4 batteries. It is designed for medium to large-size commercial solar energy storage applications. Depending upon customer's specific needs, we can provide both off-grid and on-grid energy storage solutions.

ENERGY SECURITY AND INDEPENDENCE (20-120kWh)

FEATURES

Wide MPPT range: 420-850V

MPPT efficiency - up to 99.8%

3-phase output isolation transformer supporting 100% unbalanced load

Hot-swap MPPT modules, flexible configuration and expansion

Front access, easy for installation and maintenance

Integrated design, less initial investment and reduction in carbon footprint, lower maintenance cost and electricity cost. through Wi-Fi

Optional
Pay As YouGo`
